Thread Identification Kits

NPT/UN THREAD ID KIT COMPLETE

NPT/UN Thread Identification for male and female SAE threads includes: NPT/NPSM, O-Ring Face Seal, 37° JIC, Flareless, Straight Thread O-Ring, 45° Flare, Inverted Flare and Brass Compression.

Kit includes carrying case, 45 anodized aluminum gauges sized from 1/8-27 to 2 1/2-12 for Pipe and 5/16-24 to 2 1/2-12 for UN/UNF 2A/2B threads, Thread and Port Guide book and a laminated NPT/UN Thread ID chart.

PATENT PENDING

METRIC ID KIT COMPLETE

International Thread Identification for male and female threads includes: M8 x 1.0 through M52 x 2.0 metric thread gauges and 1/8-28 BSPP through 2-11 BSPP thread gauges.

Kit includes carrying case, 31 anodized aluminum gauges and Thread and Port Guide Book.

PATENTED

Unlike other kits, these light weight anodized aluminum thread gauges are threaded with both male and female ends so you can identify sizes quickly!
